

# SUSHI MAKER

Commercial Sushi Rice Ball Forming Machine

## ASM450/ASM450CE

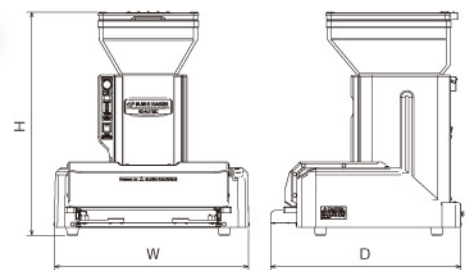

**SUSHI MAKER**

Control Panel

Automated alignment with one button

### Automated alignment and automated forming can be done with 1 machine! Great dedication to your labor efficiency

- As it can be used in various locations, can expand your operation and improve the efficiency of your work.
- Auto start: Machine starts forming rice balls automatically when a tray is set.
- Easy to remove rice balls in the dedicated tray and easy to replace the tray with one hand.
- Catch arm is installed: No need to touch rice balls during operation.
- 50 rice balls are aligned in the tray automatically in 90 seconds.
- Compact design that can fit on a working bench of D450 x W600 mm.
- 20% fewer parts compared to the former model.
- Exclusive rice tray (ASA159) is necessary for this machine. (Sold separately)

※The picture and dimensional outline drawing are shown in the CE-type.

ASM450	
Power Supply	AC100V 50Hz / 60Hz
Power Consumption	115W
Production Capacity	Up to 2,200 pieces per hour (50Hz) Up to 2,400 pieces per hour (60Hz) ※The production capacity varies depending on the setting and the conditions
Volume Adjustment	17 - 25 g / ball (SS, S, M, L)
Hopper Capacity	Approx. 7.5 kg
Dimensions	W 600 x D 588 x H 690 mm ※Excluding the power cord and screw's salient parts
Weight	Approx. 43 kg
ASM450CE	
Power Supply	AC230V 50Hz
Power Consumption	130W
Production Capacity	Up to 2,200 pieces per hour ※The production capacity varies depending on the setting and the conditions
Volume Adjustment	17 - 25 g / ball (SS, S, M, L)
Hopper Capacity	Approx. 7.5 kg
Dimensions	W 600 x D 588 x H 690 mm ※Excluding the power cord and screw's salient parts
Weight	Approx. 43 kg
